Objective

Motivated final-year software engineering student with a strong focus on Artificial Intelligence, Machine Learning, Data Science, and Blockchain technologies. Experienced in developing practical AI solutions and decentralized systems through academic and hackathon projects. Eager to apply research-driven problem-solving and technical expertise in a PFE internship, with a focus on Natural Language Processing, intelligent system development, and real-world innovation.

Experience

Intern – Altavo Partners (Hedera Blockchain) | Paris, France (remote) | Summer 2025

- Developed backend services using **Node.js**, **PostgreSQL**, and **Docker**, integrated with the **Hedera SDK** for a blockchain platform as part of the **Hedera Africa Hackathon**.
- Enhanced system reliability by implementing robust API endpoints and optimizing DB queries.

Intelligent Online Classroom System (PFA Project) | 2025

- Built a secure web application using **Angular**, featuring interactive quizzes with webcam recording and synchronized multimodal dataset collection (facial responses + textual answers).
- Designed a multimodal AI system combining **YOLO** for face detection, a custom generative model for real-time facial expression analysis, and **NLP** for chat-based understanding.

Intern – Infotech Consulting Services (ICS) | Sfax, Tunisia | Summer 2024

- Developed the “Geex” project using **Laravel** and **Vue.js** to manage university schedules, exam logistics, and the administration of students, classes, professors, and resources.

Education

International Institute of Technology (IIT), Sfax

Computer Engineering | Expected Graduation: 2026

Engineering Preparatory Institute of Sfax (IPEIS)

National Entrance Exam for Engineering Schools | 2023

Skills and Abilities

- **Programming Languages:** Python, C, JavaScript, PHP, Java
- **Web Frameworks:** Laravel, Angular, Next.js, Express, Spring Boot
- **AI & ML Tools:** TensorFlow, PyTorch, Pandas, NumPy, scikit-learn, Matplotlib
- **Languages:** Arabic, French, English, German (A1)

Certifications

2024 — Information Technology Security (ITS) – **Python**

2024 — Information Technology Security (ITS) – **AI**
